Career Objective

Enthusiastic final-year B.Tech student (ECE) with a strong foundation in Web Development and a growing passion for AI. Adept at building full-stack applications and solving real-world problems using modern technologies and AI collaboration tools like ChatGPT. Seeking a software development role where I can contribute, grow, and innovate.

SKILLS

- **Programming Languages:** Python, C(Basics), JavaScript, HTML, CSS, SQL, Node .js
- **Tools & Frameworks:** Bootstrap, Git
- **Databases:** MySQL
- **Core Skills:** Analytical Thinking, Prompt Engineering, Debugging, Version Control (Git), API Integration, Responsive Design, Collaboration & Teamwork, Time Management

PROJECTS

- **Portfolio Website** – HTML, CSS, Bootstrap, JS

Built a personal portfolio with a responsive layout, multi-page structure, interactive navbar, and skill-based animations using Font Awesome and Bootstrap.

- **Text Translator App** – React, Tailwind and RapidAPI

An input field takes English input and translates it into the user's preferred language using the RapidAPI translation service.

- **Medical Insurance Prediction Model** – Python, Scikit-learn

Built a regression model to predict insurance costs based on features like age, BMI, and smoking status. Applied preprocessing, training, evaluation, and AI-pair-programming via ChatGPT to simulate real-world workflows.

EXPERIENCE

PG Portal – AI-Assisted Full Stack Web Application – *Personal Project*

- Personal Project | July 2025 – Present
- Tech Stack: FastAPI, React.js, PostgreSQL, REST APIs, Prompt Engineering (ChatGPT), Git
- As a solo developer, I conceptualized and built a full-stack PG (Paying Guest) Management Portal aimed at streamlining communication between students and hostel owners. What makes this project unique is that it was developed entirely through AI-assisted engineering, utilizing ChatGPT to simulate a real-world AI-pair-programming environment. This allowed me to focus on architecture, debugging, and deep problem-solving while using AI for boilerplate generation and decision-making support.

Machine Learning with Python – Online – *AI Driven Learning Journey*

April 2024 – June 2024

- Tech Stack: Python, NumPy, Pandas, Scikit-learn, Jupyter Notebook, Google Colab, Prompt Engineering
- Completed a hands-on ML learning journey where I implemented end-to-end supervised learning workflows, including data preprocessing, model training, and evaluation.
Developed a **Medical Insurance Cost Prediction Model** using Linear Regression and explored techniques like feature scaling and visualization.
Future Improvements : Adopting an **AI-first approach**, combining traditional ML coursework with ChatGPT-guided debugging and mini-project creation, simulating real-world AI-assisted development environments.

HTML/CSS Hackathon – Web Design & Animation Sprint – *Dr. Lankapalli Bullayya College of Engineering, Visakhapatnam*

February 28th 2025

- Tech Stack: HTML5, CSS3, Keyframe Animations, Responsive Design
- As part of a competitive HTML/CSS hackathon hosted by the Moon Phoenix Club, my team secured 1st place and a trophy for building a multi-page replica of a college website. My contribution was focused on pixel-perfect design, smooth transitions, and creating engaging user interfaces under time constraints.

TRAINING

NxtWave CCBP 4.0 Academy – Full Stack Developer Training

✓ **Completed:** HTML, CSS, Bootstrap, Python Fundamentals, JavaScript, SQL, NodeJS, Git

⚙️ **Ongoing:** React.js

🎯 **Upcoming:** Data Structures

CERTIFICATIONS

1. BUILD YOUR OWN STATIC WEBSITE by NxtWave.
2. BUILD YOUR OWN RESPONSIVE WEBSITE by NxtWave.
3. Introduction to SQL by NxtWave.
4. PROGRAMMING FOUNDATIONS IN PYTHON by NxtWave.
5. Build Your Own Dynamic Web Application by Nxtwave.
6. JavaScript Essentials by Nxtwave.
7. Developer Foundations by Nxtwave.
8. Node Js by Nxtwave

EDUCATION

Dr. Lankapalli Bullayya College Of Engineering(Affiliated to Andhra University), Visakhapatnam – *B.Tech in Electronics and Communication Engineering*

September 2022 – April 2026

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering, Dr. Lankapalli Bullayya College Of Engineering, 2022 – 2026.

Sri Chaitanya Junior College, Dwaraka Nagar Visakhapatnam – *Intermediate (MPC)*

June 2020 – May 2022

Completed SSC from Sri Chaitanya Techno School, May 2020.

Extra-Curricular Activities

Participated in HACKATHON organized as a part of Institution of Innovation Council(IIC) on 28th Feb, 2025.

Participated in Poster Presentation and IEEE format Paper Presentation organized as a part of Swarnotsav Tech Fest 2k24 by the department of ECE on 4th Jan, 2024.

Appreciated in Poster Presentation in Science Talk on the occasion of National Science Day on 28th Feb, 2023.

AWARDS

Secured 1st place in HTML/CSS hackathon in my college organized by Moon Phoenix club.

LANGUAGES

English (Fluent)

Telugu (Native)

Hindi (Basic)

HOBBIES

Exploring web development projects

AI enthusiast
